

## Women in Security

# Building a Female InfoSec Community in Korea, Japan, and Taiwan

South

*Suhee Kang, Asuka Nakajima, Hazel Yen*

# Background [1/2]

## Information Security Industry Has Historically Been a Male-Dominated Field

2017

Women represent only  
**11%** of the information  
security workforce<sup>[1]</sup>

WOMEN IN CYBERSECURITY

[1] The 2017 Global Information Security Workforce Study:  
Women in Cybersecurity, A Frost & Sullivan Whitepaper

<https://isc2-center.my.salesforce.com/sfc/p/#G0000000iVSt/a/0f000000bpWC/zrswNsFs1GxS3Bqfb1obFxb5NgZeDkSHeiOJVod8afQ>

# Background [2/2]

**More Women are Expected to Join the Information Security Industry..**

**However....**

etc

**Stereo  
Type Bias**

**Social  
Pressure**

**Difficult to  
increase their number**

**To Bridge This Gap**

**Female Community**

- ☒ **Support & Motivate Women**
- ☒ **Produce More Role Models**

# About Today's Talk

Introduce Three Representative Asian Female Communities  
Power of XX (Korea), CTF for GIRLS (Japan), HITCON GIRLS (Taiwan)

South

Founder of  
Power of XX

Est. 2011

**Suhee Kang**

Founder of  
CTF for GIRLS

Est. 2014.06

**Asuka Nakajima**

Co-Founder of  
HITCON GIRLS

Est. 2014.12

**Hazel Yen**

## What we will talk

- ✓ How We Build & Maintain the Community
- ✓ What We Have Achieved
- ✓ How We Tackled Various Challenges

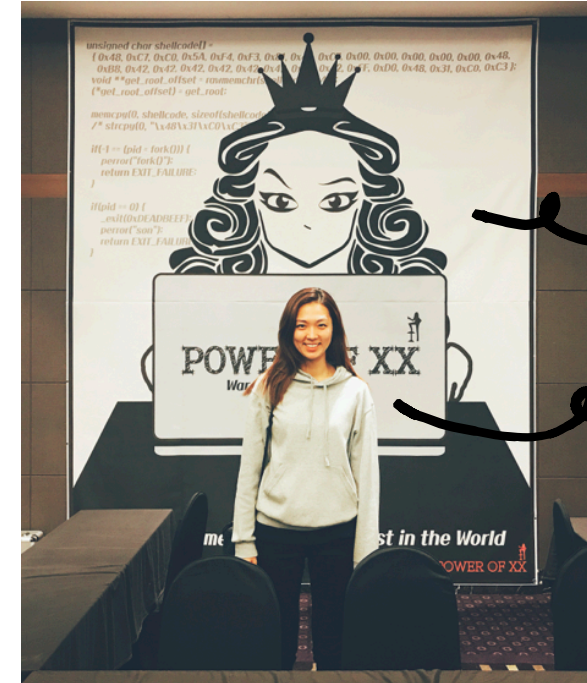

# South Korea: Power of XX

*Suhee Kang (Security Researcher, POCSEC)*

- Name: Suhee Kang
- Company: POC Security, researcher
  - ✓ POC: <http://powerofcommunity.net>
  - ✓ Zer0Con: <http://zer0con.org>
  - ✓ MOSEC (in Shanghai): <http://mosec.org>

- Jogger
- Dog lover 😊
- Soju holic 😊
- ...

ME!

My Favorite

# What is Power of XX?

- Here 'XX' means chromosome of women
- **First batter** of women-only CTF
- CTF >>> Community

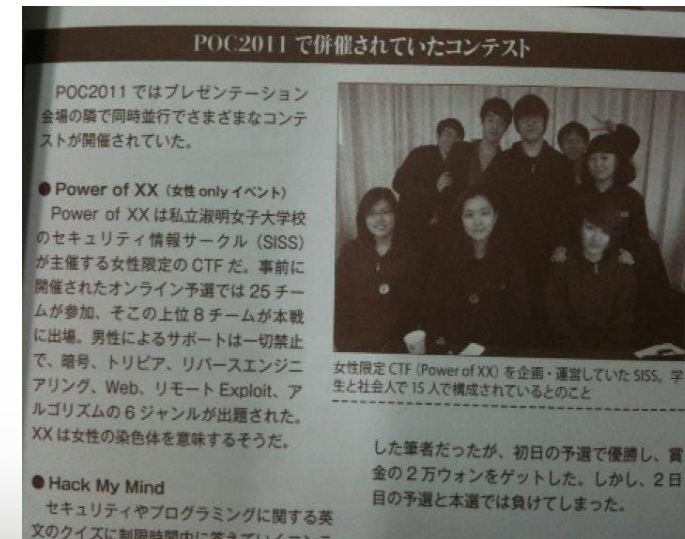

# Introduction of PoXX [1/3]

- Beginning

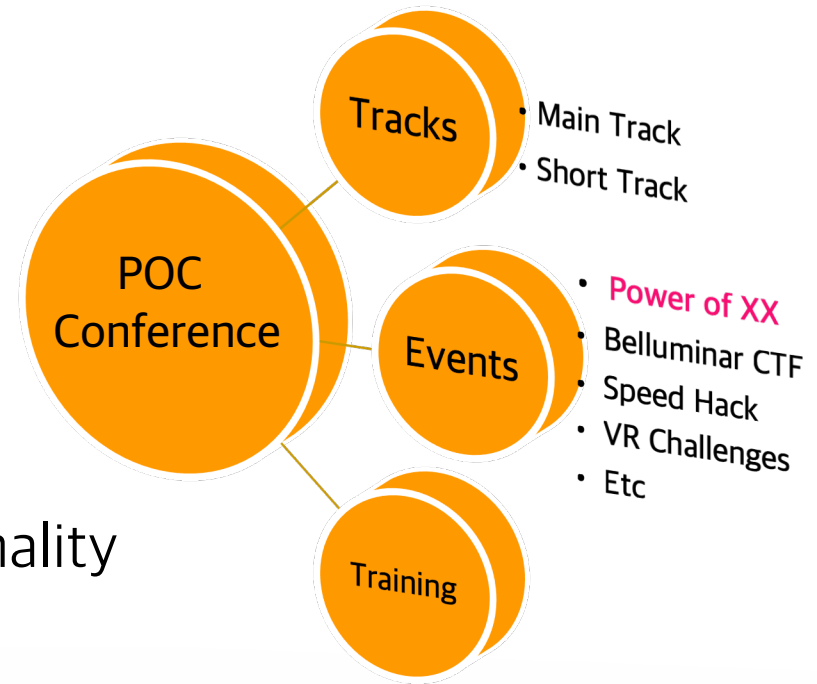

- ✓ Established in 2011
- ✓ Cyber Security Club, SISS(Sookmyung women's Univ.)

# Introduction of PoXX [2/3]

- Operation

- ✓ Jeopardy style CTF
- ✓ Qualification & Final
- ✓ 80 teams in average
- ✓ No limitation in number of members, nationality
- ✓ Only 6~8 teams go to Final

# Introduction of PoXX [3/3]

- Operation

- ✓ Various teams from various groups
- ✓ Aged from 10s to 30s
- ✓ Award is given to 1st to 3rd
- ✓ Until 2016, SISS & Hacker School
- ✓ 2017~now, SISS & Demon team

In 2012,  
Computer World  
Interview

SISS & Hacker  
School

In 2017,  
SISS & Demon  
team

- Why we run this?
- Barriers
  - ✓ Underrepresented in this area
  - ✓ Lack of Community
  - ✓ Lack of female role models
  - ✓ Difficulties in learning
  - ✓ Male-dominated field

# Objects [2/3]

- Research of ISACA in 2017:

- So, Why we run this?
  - ✓ To cultivate women InfoSec researchers & hackers
  - ✓ To retain women who already in this field
  - ✓ Why we started with CTF?

# Overcome [1/4]

- Interesting concept Challenges

- ✓ Programing, System, Web, Network, Forensic, Crypto, Misc, ...
- ✓ Combine with Maze System, Treasure Hunt, Games, ...
- ✓ Combine with Recent Issues
- ✓ From Basic to Advanced

2011 - Shooting game challenge

# Overcome [2/4]

- Larger pool of women researchers & Build Networks

2011 - 2014

Invitation to 'PHDays CTF' in Russia

2014

Invited 'CTF 4 Girls' in Japan to final

2015

Invited well known hacker as mentor

Every Year

Invited whole teams to Networking Parties

Every Year

Provide souvenirs to PR

2017

Invited 'HITCON Girls' in Taiwan to final

# Overcome [3/4]

- Larger pool of women researchers & Build Networks

2011

2012

2011 Russia

2015 Mentor

2017

- Recruit them to hacker teams
  - ✓ Provide various opportunities

# Impacts

- **More** women hackers and researchers
  - ✓ about 30 people => 80 teams!
  - ✓ Not only Domestic teams
  - ✓ Abroad teams in USA, Japan, Taiwan, ...
- Winner of 2018 won 1<sup>st</sup> place at other CTF
- More sustainable, stable community

# Future Plans [1/2]

• Korea

=>

Japan

=>

Taiwan

=>

Who's next ?

?

- In near future,
  - ✓ TR program for whole age women in Korea
  - ✓ Organizing PoXX with various teams from...
  - ✓ Hold international competition with...
  - ✓ Co-operating with Belluminar ([www.belluminar.org](http://www.belluminar.org))

- Facebook: @sm.siss, @POC\_Conference
- Twitter: @POC\_Crew
- Email: powerofxx@gmail.com  
: suhee@pocsec.com
- We are moving website now ☺

Thanks!

# **Japan: CTF for GIRLS**

*Asuka Nakajima (Security Researcher, NTT)*

# First Female InfoSec Community in Japan

## Overview

- ✓ **Established in 2014**
- ✓ **Supported by SECCON**
  - Largest CTF in Japan
  - More than **30** Japanese companies sponsor SECCON (e.g., NEC, Fujitsu)
- ✓ **Started from about 10 members**
  - Members are all female engineers & students
  - Number of members is currently about **30**

# Why?

## My Personal Experience & Opinions from My Female Friends

I don't know where to start..

Difficult to fit into a workshop (community)..  
Most of the participants are men....

Maybe infosec is not for women..

**First Step to Break this Barrier ➡ Make a Female Community**

# Activities of CTF for GIRLS

**1. Women-Only CTF Workshop**

**2. Women-Only CTF**

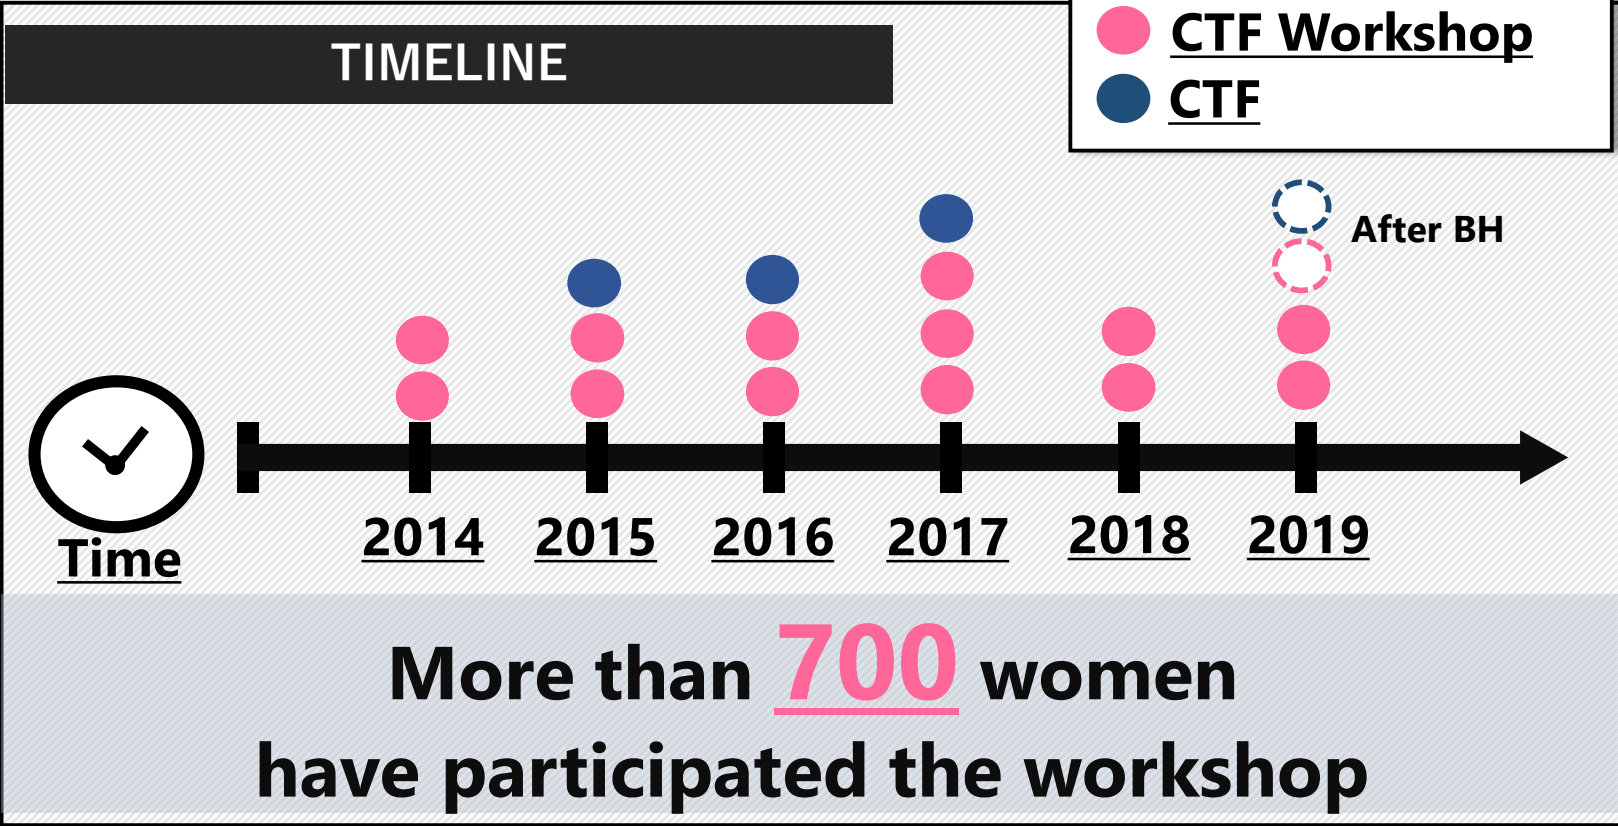

# About CTF Workshop (+Timeline)

| WS               | Year/M  | Category  |

| 1 <sup>st</sup>  | 2017.08 | Web/Crypto |
| 2 <sup>nd</sup>  | 2018.08 | Network    |

2-3 times / year

Total 13 times

# Contents of CTF Workshop

## Teach From the Basics of Computer Science

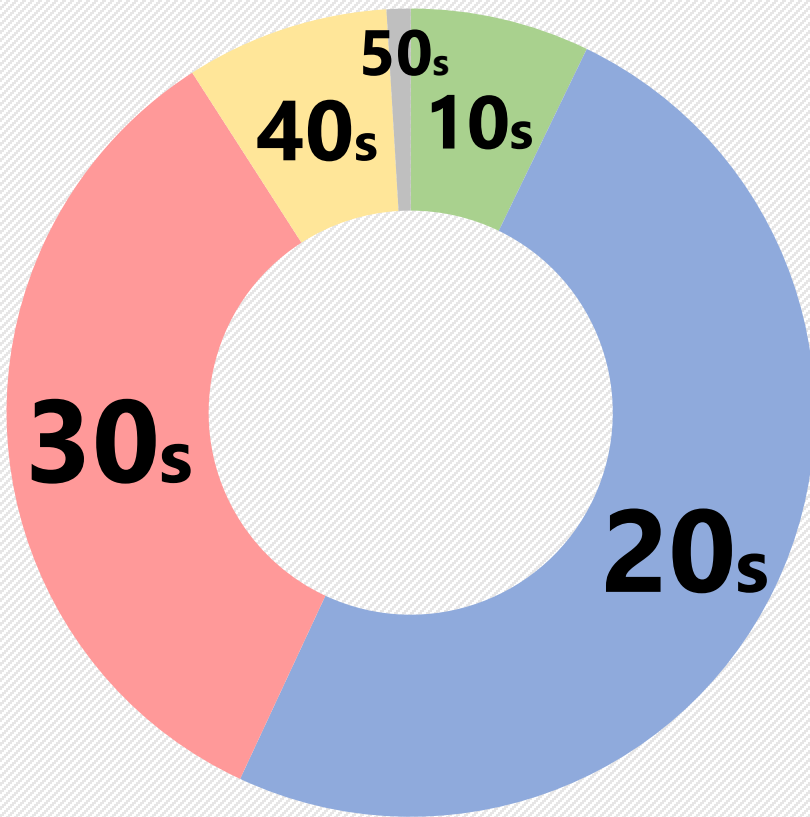

| Category        | Details  |
|-----------------|--|
| Network         | TCP/IP Basics, Packet Structure, How to use Wireshark      |
| Web             | Web Security Basics, SQL injection, How to use Burp Suite  |
| Binary Analysis | Hexadecimal, Assembly, Windows API, How to use Debugger    |
| Forensics       | Disk Analysis, Windows Registry, How to use FTK Imager     |
| Crypto          | Password Crack, Known Plain Text Attack, Common/Public Key |

**40 min Lecture + 50 min Exercise (mini CTF)**

# CTF Workshop (Statistics)

Age Group of Participants

## Overview

- ✓ Most of the participants are in their **20s** or **30s**
  - Students are still few

# CTF Workshop (TIPS)

## TIPS

- ✓ **Provide a VM which all the related tools are already installed**
  - Provide a manual to install the VM
- ✓ **Answer the questions from the participants as soon as possible**
- ✓ **Provide CTF challenges from basic to advanced level**
  - Make sure that everyone can enjoy the workshop
- ✓ **(Regulate Media & Photos)**
  - Some participants don't want to be posted on the Internet (Social Media)

# Women-only CTF (GHOST IN THE SHELL CTF)

2015-2017

Winner (2017)

## Overview

攻殻機動隊

### ✓ What is "Ghost in the Shell"?

- Famous Japanese science fiction comic which is originally written by Shirow Masamune, and was made into movie by Hollywood in 2017

### ✓ Goal

- Produce highly skilled female security engineer, such as Motoko Kusanagi, the heroine of "GHOST IN THE SHELL" which is called as "ultra-wizard hacker"

### ✓ Jeopardy-style CTF (Individual CTF)

- 20~30 Participants / 1-Day Competition
- Winner of 2017 is security researcher from **PPP**

|                 | Year | Domestic or International? [Place] |       |
|-----------------|------|------------------------------------|-------|
| 1 <sup>st</sup> | 2015 | Domestic                           | Kobe  |
| 2 <sup>nd</sup> | 2016 | Domestic                           | Tokyo |
| 3 <sup>rd</sup> | 2017 | International (in CODE BLUE)       | Tokyo |

CODE BLUE

AMATERAS 零

# CTF Visualization System

## AMATERAS 零

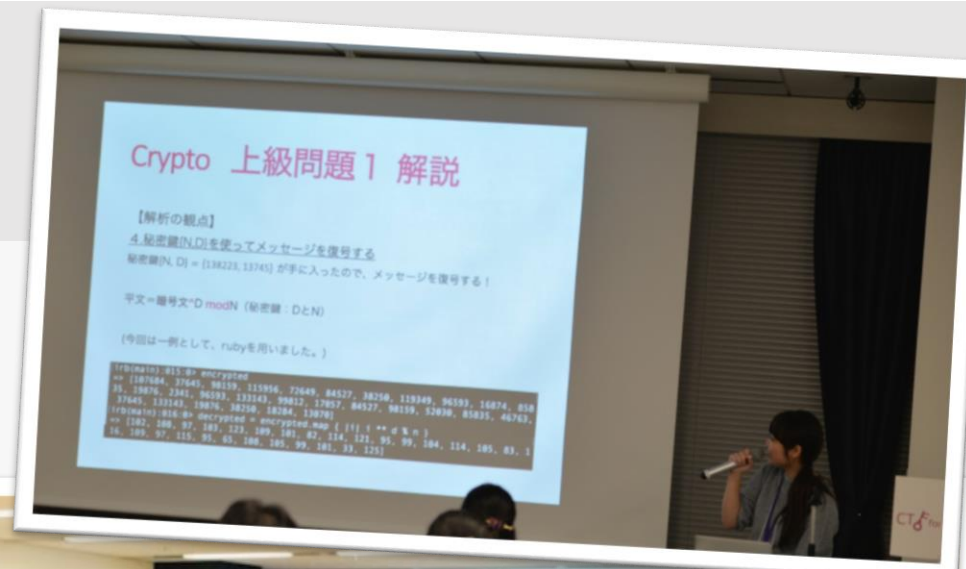

✓ Advanced Multi-Actor Tactical Exercise Real-time Analysis System: Prototype Version 0

✓ Developed by NICT

National Institute of Information and Communications Technology

# Photos

# Networking Female [1/2]

## Visualize the Community to Gain Recognition

### Official Website

### Sticker

### How Did We Visualize?

#### ✓ Created an official website & SNS accounts

- Reported the activities regularly

@ctf4g

#### ✓ Created a logo, sticker, and T-shirts

#### ✓ Invited a media and took the interview

- News paper, Magazine, and Web Media

#### ✓ Collaborated with famous events/contents

- CODEBLUE, Ghost in the shell

# Networking Female [2/2]

## Actively Facilitate Networking

Donut

Macaron

### How Did We Facilitate Networking?

- ✓ Provided cute snack during the break
  - Donut, Macaron, Cupcake, Pudding..etc.
- ✓ Held an after-party
  - About **10~40%** of participants also participates the after-party

# Building Sustainable Community [1/2]

## Actively Recruit New Members

### How Did We Recruit New Members?

#### Early Stage

Asked existing local community members (SECCON) whether they know a woman who is interested in CTF for GIRLS activities

#### Now

Recruit a new member from the workshop participants

# Building Sustainable Community [2/2]

## Create an Organization that Does not Rely on a Single Person

### Groupware + Wiki

### What We Focused on

- ✓ Created a manual
  - How to create CTF challenges
  - How to hold workshop
- ✓ Hand over power to young members

**Even the Leader (Asuka) can be replaced**

# Acknowledgment

### Events&Activities

Study Group

Meeting

Leader Election

## Study Group

# Events We Held

## The Events

- ▶ The beginning: Workshop
- ▶ Hacks in Taiwan Conference Community
- ▶ HG at HITB
- ▶ CTF for HG 4th Audition

## Knowledge Sharing

- ▶ InfoSec Budding Promotion: Teenager Summer Camp
- ▶ Studying group annual presentation
- ▶ GoToConference Project

## Sharing Invitation

- ▶ The first anniversary&PPP interview
- ▶ Chipchat Party
- ▶ Birds of a Feather
- ▶ InfoSec Women's Sharing

# Events We Held

2014

## The beginning: Workshop

- It was the beginning of HITCON GIRLS.
- All the attendees were female, including students and employees, who were learning about InfoSec for the first time.

# Events We Held: Knowledge Sharing

**2015**

## Study group annual presentation

- It was a presentation about the research from our Study Group.
- We introduced how we learned and how much we have grown in the Study Group this year.

# Events We Held: Sharing Invitation

2015

## The first anniversary&PPP interview

- It was the first time we had new girls join us.
- Fortunately, we invited Tyler and Erye from PPP to share with us.
- The topic was "**How interesting InfoSec is**".

# Events We Held: Sharing Invitation

## 2016 Chipchat Party

- We invited Katie Moussouris, Kana Shinoda and Eva Chen to give a chat in the party!
- What we confirmed from them is that "**It is possible for women to be outstanding in the Cybersecurity field**".

**HITCON GIRLS  
CHIPCHAT PARTY**

*Let's chitchat with...*

Kana Shinoda

Katie Moussouris

Eva Chen

December 3rd  
2:30 pm - 4:30 pm

# Events We Held: Knowledge Sharing

## 2017 InfoSec Budding Promotion

- We introduced information security for teenagers.
- The topics included web security, binary analysis, cryptography and CTF introduction.

HITCON GIRLS 資安萌芽推廣  
青少年資安暑期營

2017.7.8 帶你/妳一起探索資安的世界

# Events We Held: Sharing Invitation

2017

## Birds of a Feather

- We invited the BoB member Dasom Kim, Trend Micro researchers Fyodor and Aaron!
- As a result, **we realized how special and unique the work of InfoSec is.**

### HITCON GIRLS 2017

## BIRDS OF A FEATHER

 2017/12/10 (Sunday)

 2:00 PM ~ 5:30 PM

 Pacific Business Hotel  
太平洋商旅 Room D

 台北市光復南路495號11樓  
11F, No. 495, Guangfu South  
Road, Xinyi District, Taipei

Dasom Kim  
BoB

Fyodor  
Trend Micro

Aaron  
Trend Micro

**Speakers.**

# Events We Held

## 2018 HITCON Community

- Hacks in Taiwan Conference(HITCON) is the most technical information security conference in Taiwan.
- The coordinators were all in HITCON GIRLS.
- Over 1000 attendees.

### HITCON #14

Chain with the world,  
Decrypt the future.

HITCON Community  
Jul. 27-28 2018 in Taipei  
南港展覽館 5F  
Taipei Nangang Exhibition Center 5F

#### Organizer

Turkey

Hazel

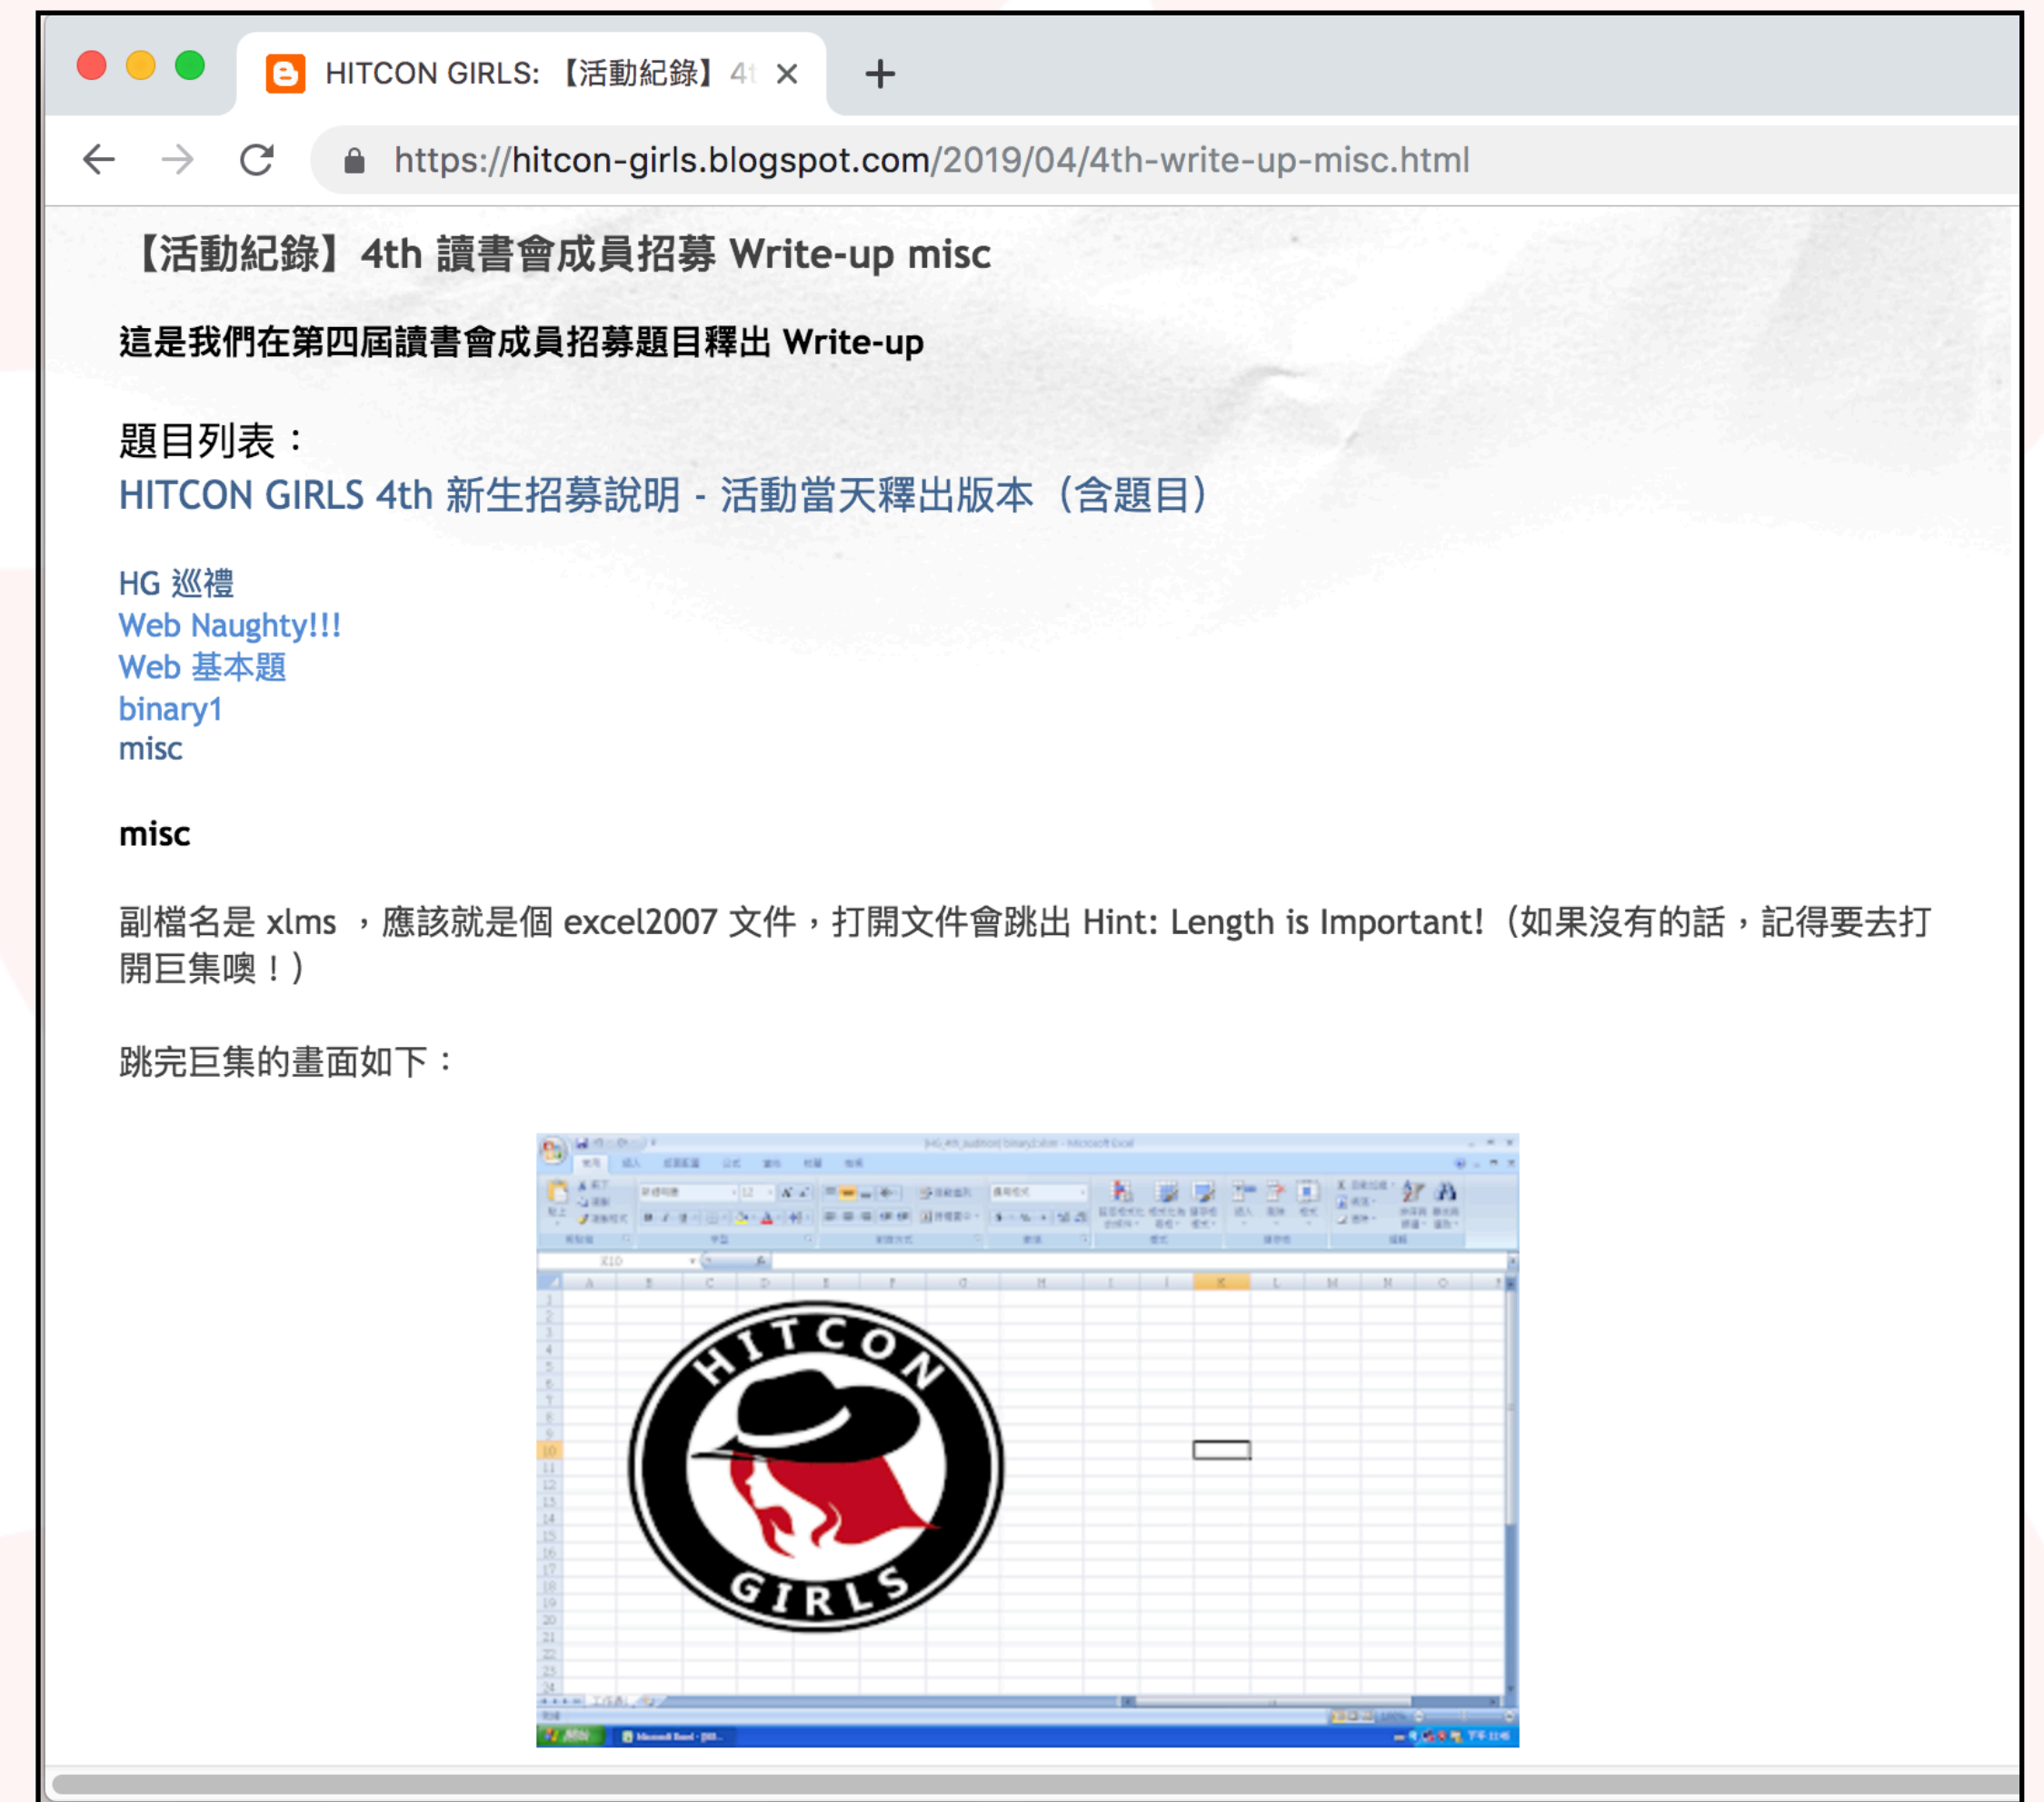

Shirley

# Events We Held

## 2019 CTF for HG 4th Audition

- As far as we know, it was the first CTF led by female in Taiwan.
- We hosted a CTF for the audition and designed the tasks by ourselves.

# Events We Held

## 2019 HG at HITB

- Thanks to the invitation from HITB, HITCON GIRLS went to Europe!
- It was our first time to host an activity overseas. We had the HG CAT Wargame and Smart Contract Challenge at the future HAXPO.

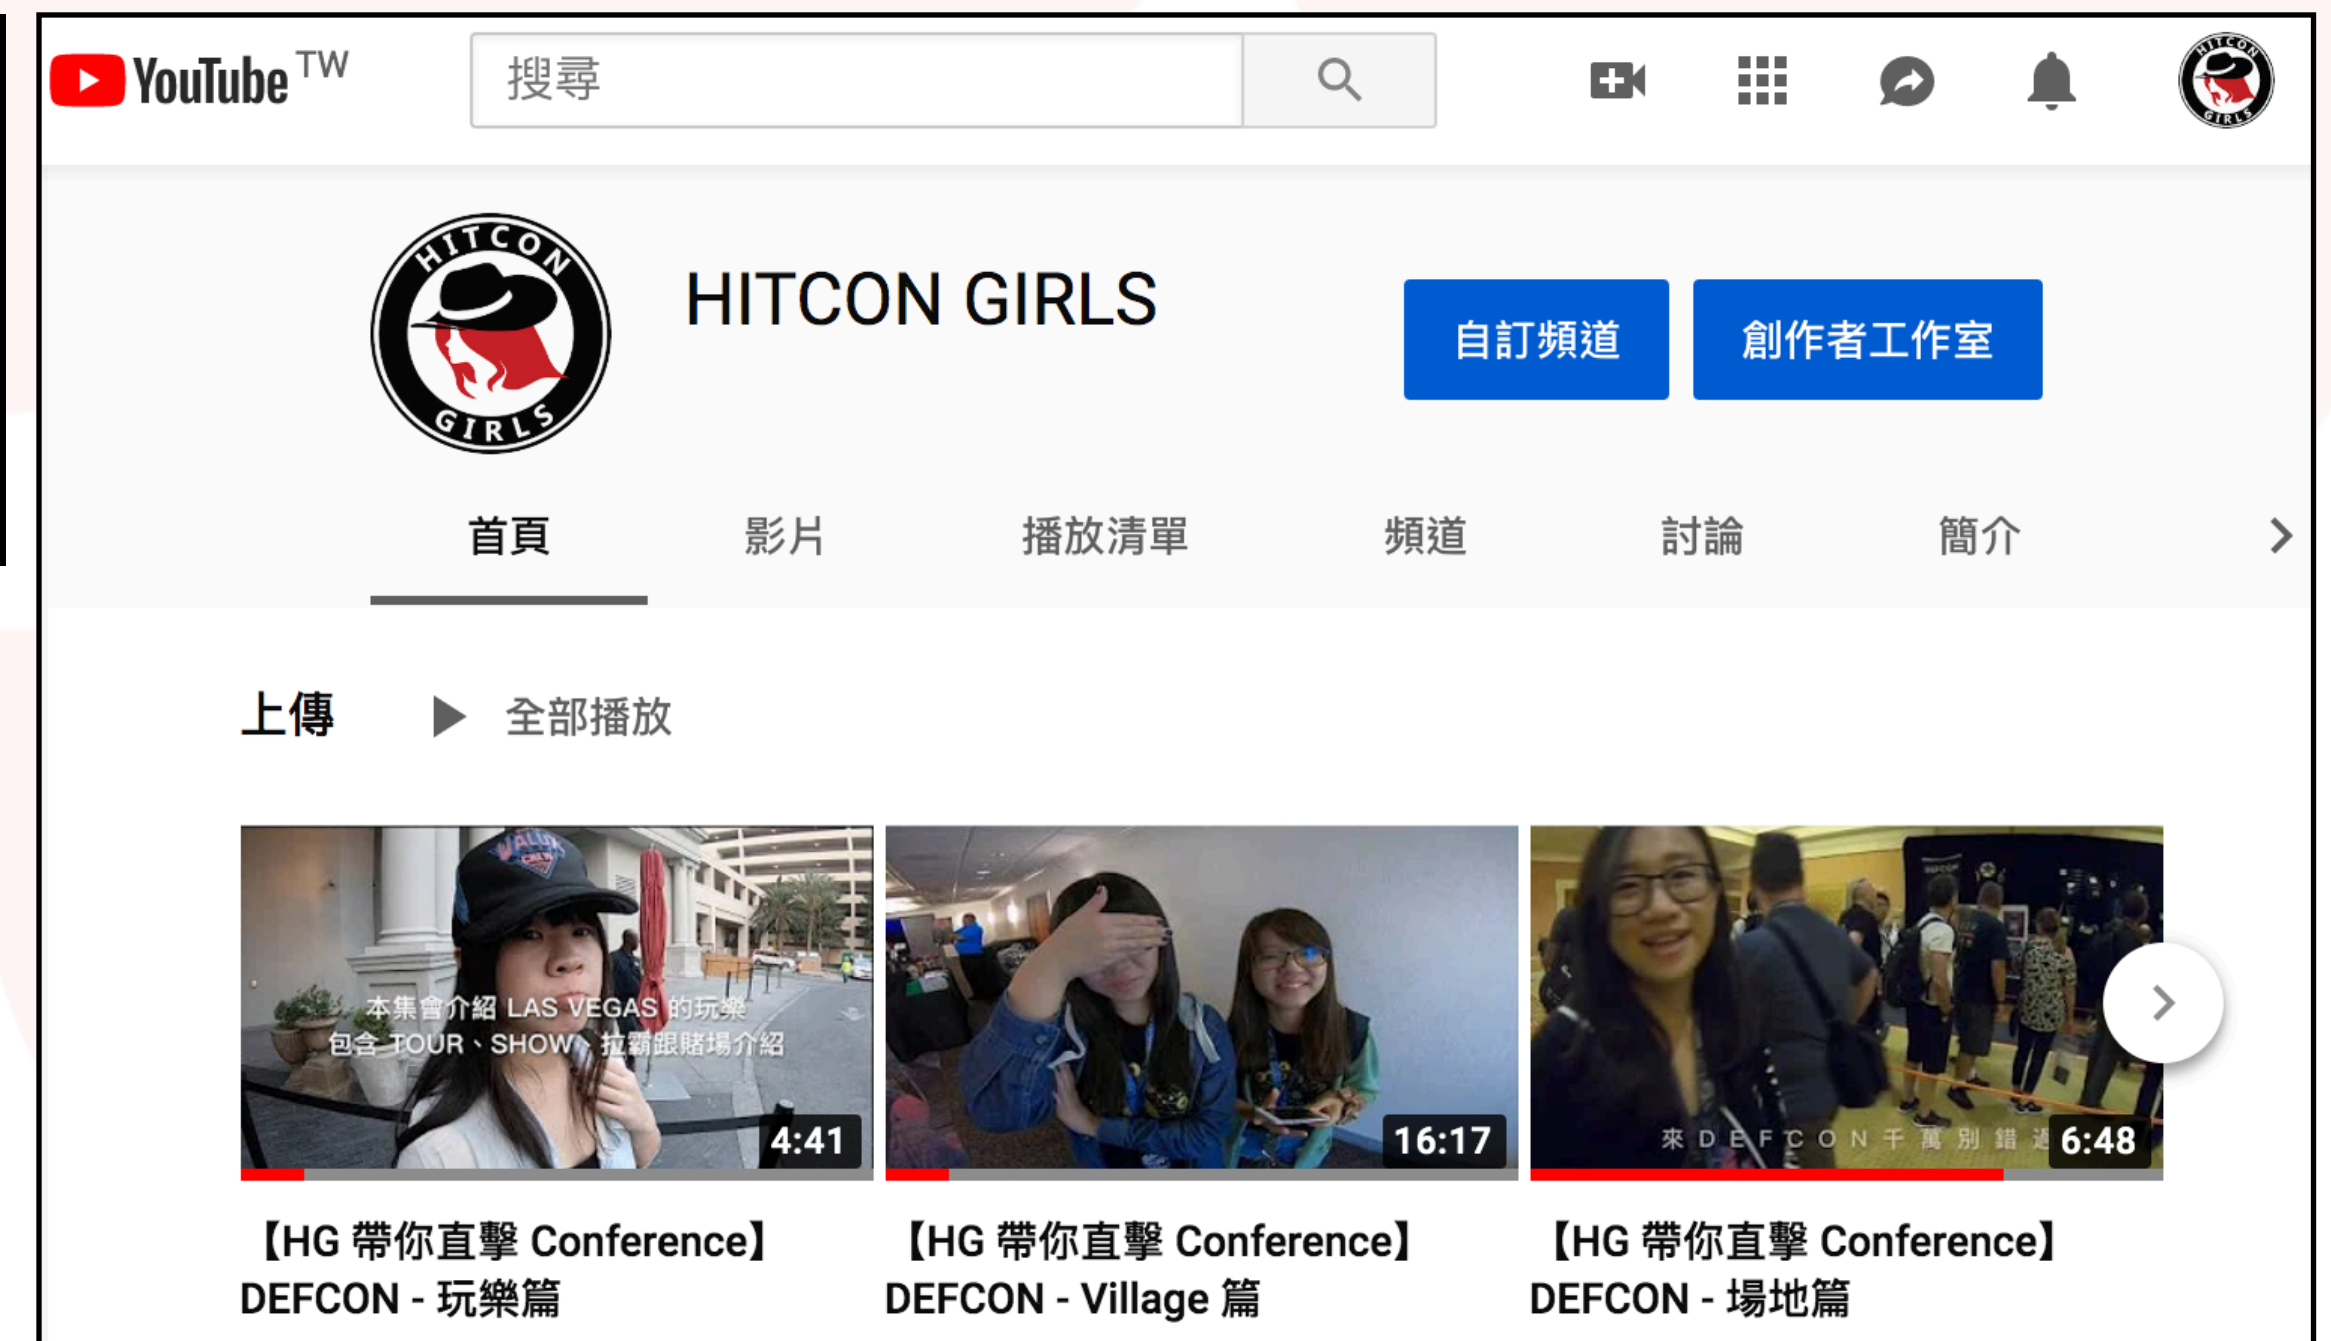

# Events We Held: Knowledge Sharing

## 2019 GoToConference Project

- We went to DEFCON and recorded this tour, which included a journey from Taiwan to Las Vegas.
- In our videos, we introduced the InfoSec security conference and talked about their special activities.

# Events We Held: Sharing Invitation

2019

## InfoSec Women's Sharing

- We invited Anna Chung, researcher from a threat intelligence company in America, to share her experience in the Cyber security field.
- Her message: "**Break stereotypes and work hard to be better**".

# Our Accomplishments

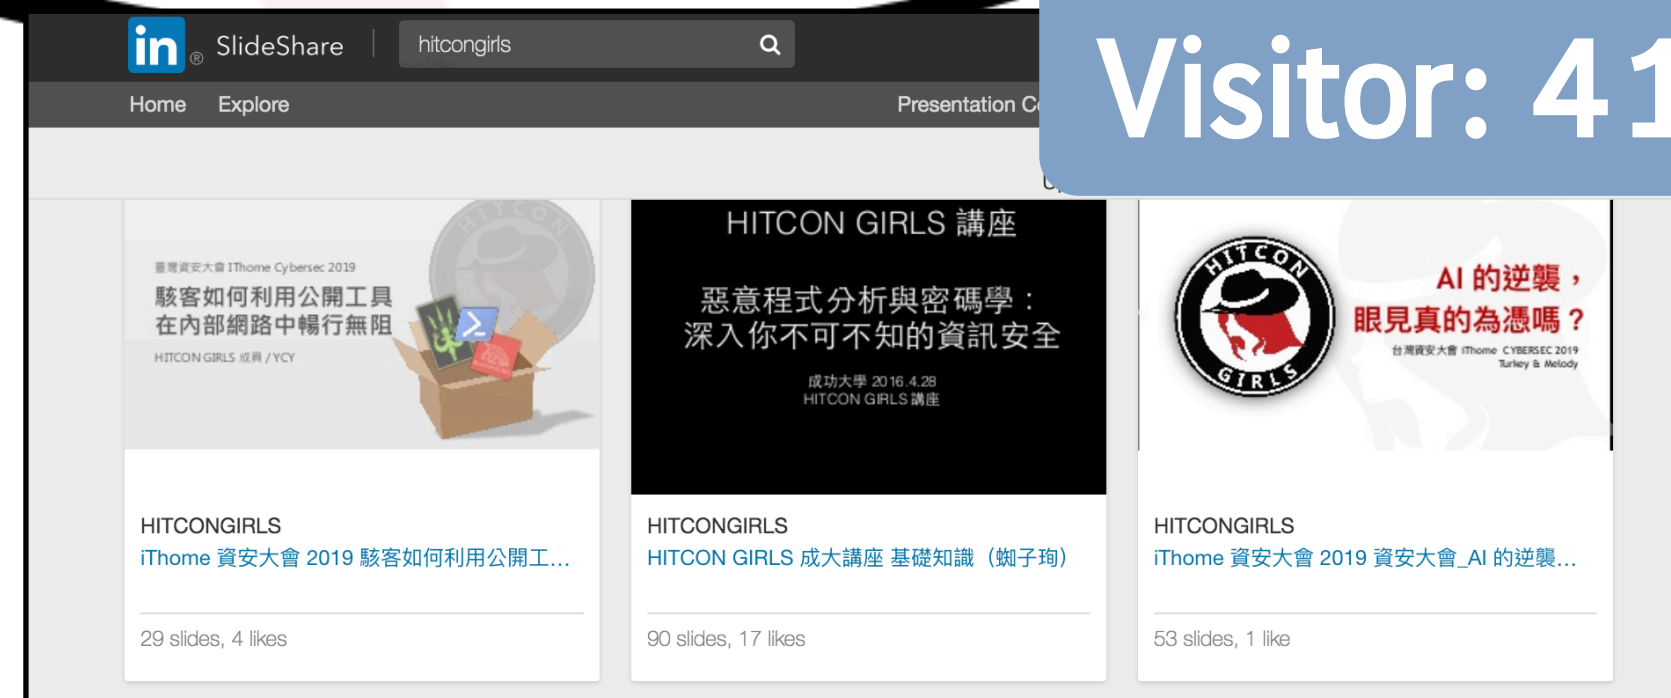

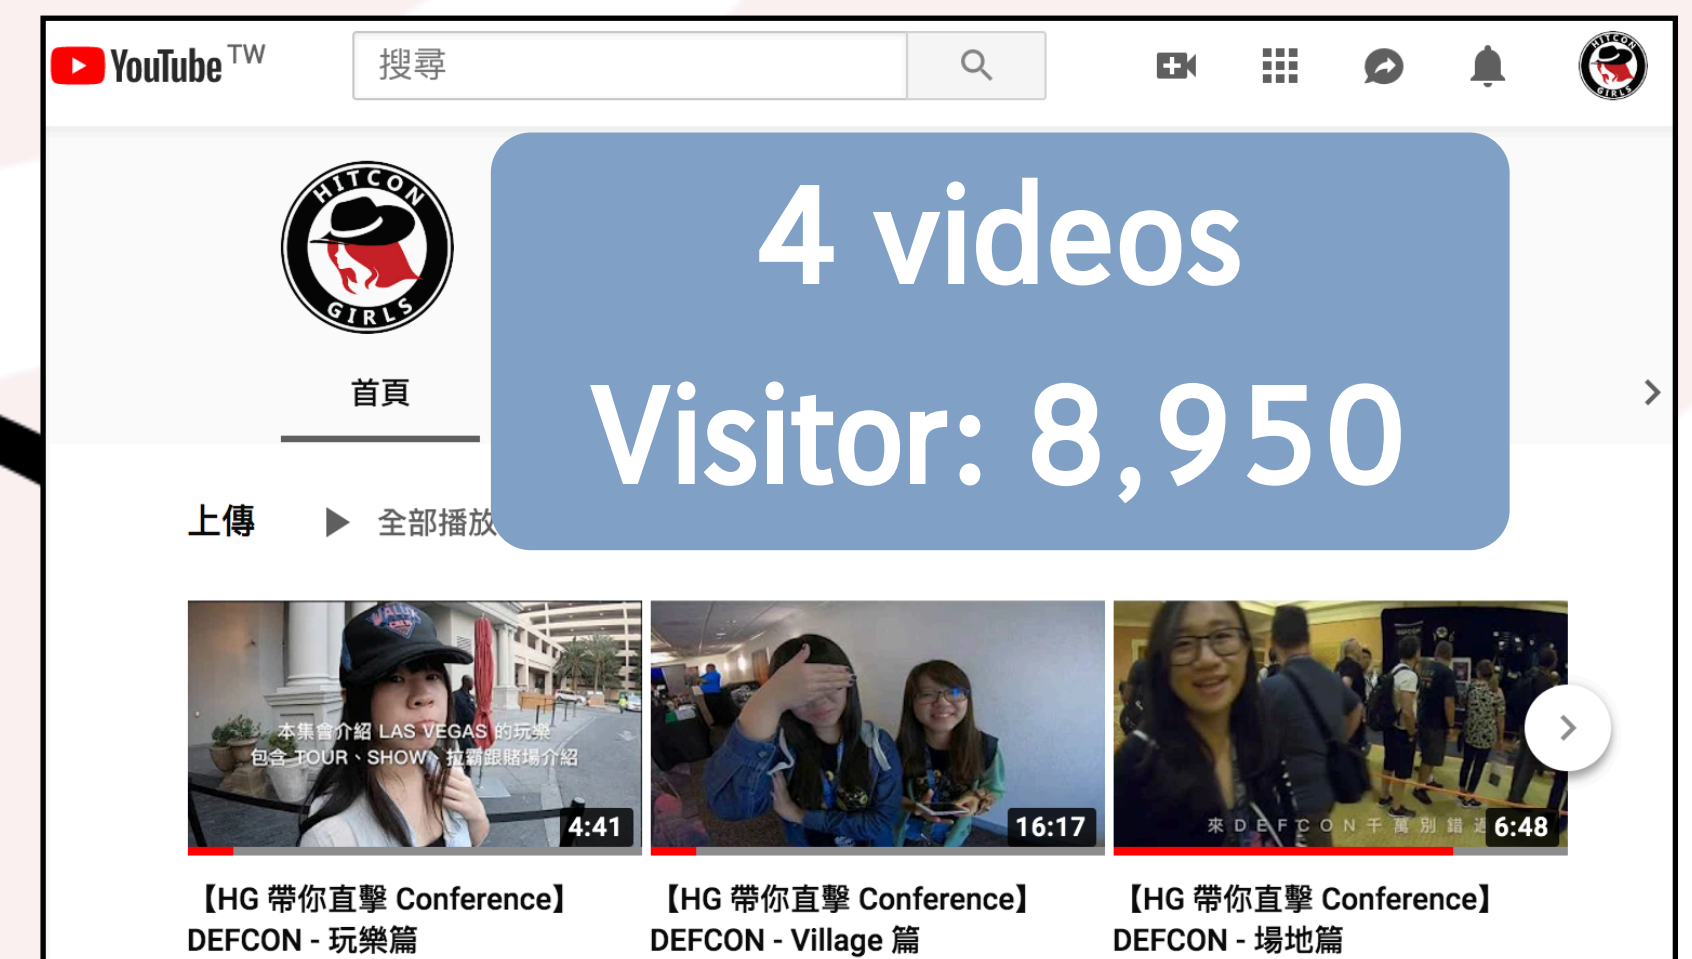

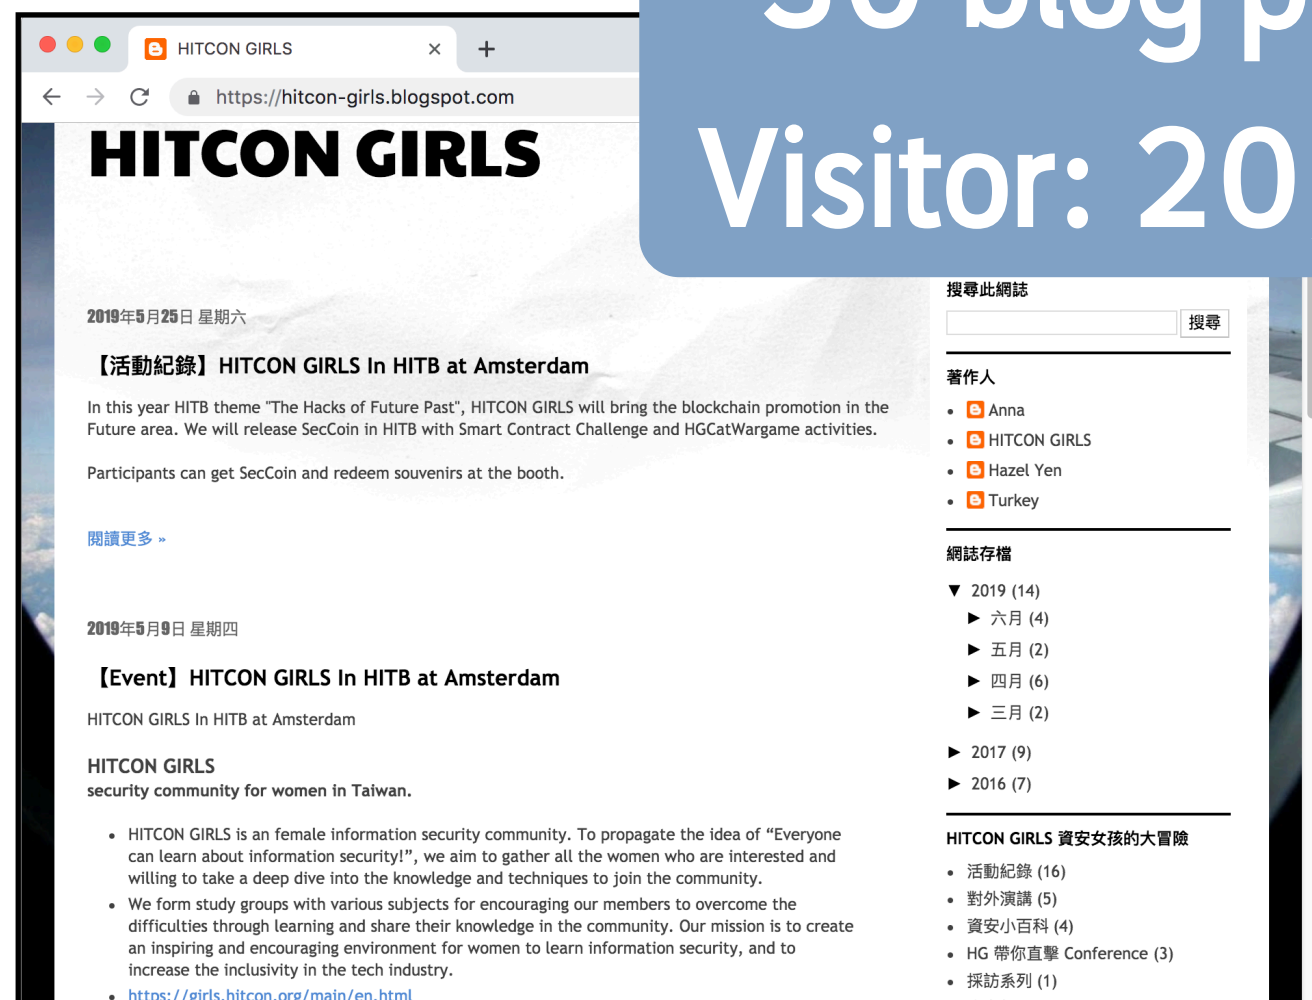

We believe everyone can learn InfoSec.

30 blog posts  
Visitor: 20,193

Sharing Knowledge

Visitor: 41,844

# Our Accomplishments

Team up girls who are interested in InfoSec,  
learning and growing together.

## Speeches

at

- ▶ National Cheng Kung University
- ▶ National Chung-Shan Institute of Science and Technology
- ▶ National Taipei University of Technology
- ▶ Yuan Ze University
- ▶ CYBERSEC
- ▶ Information Associate of Students
- ▶ The workshop of thenewslens
- ▶ WhiteHatFest

## Own our CTF

# Takeaways

# Takeaways

- ❑ History and current status/activities of three Asian representative female InfoSec communities in South Korea, Japan, and Taiwan
- ❑ How we build and maintain our communities and how we tackle the various challenges such as having a sustainable community
- ❑ Comparison of three the communities reveals some of the crucial factors in starting and continuing a female community
  - ✓ Each community started by a few tech-savvy women
  - ✓ Support from existing local community: POC, SECCON, and HITCON
  - ✓ All the community members are connected by their interests in technology (e.g., CTF)

# Questions?
