Media moguls body discovered

By STAFF REPORTER

Published: Today

Rupert Murdoch, the controversial media mogul, has reportedly been found dead in his garden, police announce.

Murdoch, aged 80, has said to have ingested a large quantity of palladium before stumbling into his famous topiary garden late last night, passing out in the early hours of the morning.

"We found the chemicals sitting beside a kitchen table, recently cooked," one officer states. "From what we can gather, Murdoch melted and consumed large quantities of it before exiting into his garden."

Authorities would not comment on whether this was a planned suicide, though the general consensus among locals and unnamed sources is that this is the case.

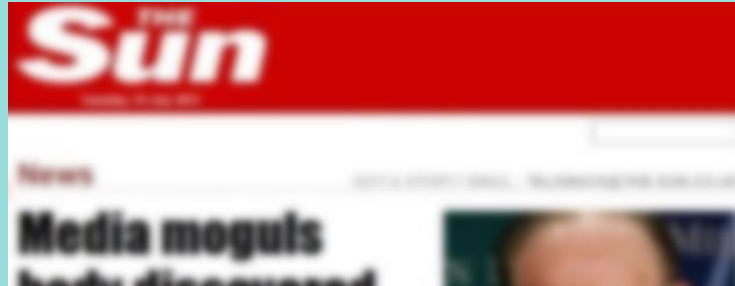

One detective elaborates. "Officers on the scene report a broken glass, a box of vintage wine, and what seems to be a family album strewn across the floor, containing images from days gone by; some containing handpainted portraits of Murdoch in his early days, donning a top hat and monocle."

19 Online Cheating Site AshleyMadison Hacked

JUL 15

Large caches of data stolen from online cheating site **AshleyMadison.com** have been posted online by an individual or group that claims to have completely compromised the company's user databases, financial records and other proprietary information. The still-unfolding leak could be quite damaging to some 37 million users of the hookup service, whose slogan is "Life is short. Have an affair."

A screenshot of the Ashley Madison website interface. The top left features the 'ASHLEY MADISON' logo in a stylized font, with the tagline 'Life is short. Have an affair.' below it. Underneath the logo is a form with the text 'Get started by telling us your relationship status:' followed by a dropdown menu labeled 'Please Select'. A pink button labeled 'See Your Matches' is positioned below the dropdown. Below the button, it says 'Over 37,565,000 anonymous members!'. The right side of the screenshot shows a close-up of a woman's face, focusing on her lips and her right index finger pressed against them in a 'shh' gesture. At the bottom of the screenshot, there are several trust and security badges: a '100% Verified People' badge, a list of media mentions ('As seen on: Hannity, Howard Stern, TIME, BusinessWeek, Sports Illustrated, Maxim, USA Today'), a quote about being the 'world's leading married dating service for discreet encounters', a 'Trusted Security Award' badge, a '100% DISCREET SERVICE' badge, and an 'SSL Secure Site' badge.

BY CHRISTOPHER BUCKTIN
U.S. Editor
HACKERS have threatened to name 1.2 million Brits who use a website to cheat on their partners.

The activists claim affair-fixer Ashley Madison destroys marriages and want it to close. If it doesn't, they said, "We'll release profiles, sexual fantasies and credit card details."

Hi, I am the boss of G.O.P.

A few days ago, we told you the fact that we had released Sony Pictures films including Annie, Fury and Still Alice to the web.

Those can be easily obtained through internet search.

For this time, we are about to release Sony Pictures data to the web. The volume of the data is under 100 Terabytes.

WRITTEN BY GUCCIFER2

I AM ON TWITTER

GUCCIFER 2.0 HACKED DCCC

Hi all!

It's time for new revelations now. All of you may have heard about the DCCC hack. As you see I wasn't wasting my time! It was even easier than in the case of the DNC breach.

As you see the U.S. presidential elections are becoming a farce, a big political performance where the voters are far from playing the leading role. Everything is being settled behind the scenes as it was with Bernie Sanders.

I wonder what happened to the true democracy, to the equal opportunities, the things we love the United States for. The big money bags are fighting for power today. They are lying constantly and don't keep their word. The MSM are producing tons of propaganda hiding the real stuff behind it. But I do believe that people have right to know what's going on inside the election process in fact.

To make a long story short, here are some DCCC docs from their server. Make use of them.

About us

2016-09-13

Greetings citizens of the world. Allow us to introduce ourselves... We are Fancy Bears' international hack team. We stand for fair play and clean sport.

We announce the start of #OpOlympics. We are going to tell you how Olympic medals are won. We hacked World Anti-Doping Agency databases and we were shocked with what we saw.

We will start with the U.S. team which has disgraced its name by tainted victories. We will also disclose exclusive information about other national Olympic teams later. Wait for sensational proof of famous athletes taking doping substances any time soon.

We are Anonymous.
We are Legion.
We do not forgive.
We do not forget.
